That BROWN'S IRON BITTERS will cure the worst case of dyspepsia.

Will insure a hearty appetite and increased digestion.

Cures general debility, and gives a new lease of life.

Dispels nervous depression and low spirits.

Restores an exhausted nursing mother to full strength and gives abundant sustenance for her child.

Strengthens the muscles and nerves, enriches the blood.

Overcomes weakness, wakefulness, and lack of energy

Keeps off all chills, fevers, and other malarial poison.

Will infuse with new life the weakest invalid.

37 Walker St., Baltimore, Dec. 1881.
For six years I have been a great sufferer from Blood Disease, Dyspepsia, and Constipation, and became so debilitated that I could not retain anything on my stomach, in fact, life had almost become a burden. Finally, when hope had almost left me, my husband seeing BROWN'S IRON BITTERS advertised in the paper, induced me to give it a trial. I am now taking the third bottle and have not felt so well in six years as I do at the present time.
Mrs. L. F. GRIFFIN.

BROWN'S IRON BITTERS will have a better tonic effect upon any one who needs "bracing up," than any medicine made.

In fever and ague districts, in tropical and other regions visited by epidemics, and indeed in all localities where the conditions are unfavorable to health, this famous vegetable invigorant and alterative, Hostetter's Stomach Bitters, has been found a potent safeguard even to feeble constitutions and fragile frames, while as a cure for indigestion, biliousness and kindred complaints, it is without a rival.

For sale by all druggists and dealers generally.

MISCELLANEOUS.

COULDN'T AFFORD IT.

Made Honest by Business Principles a Druggist Tells the Square Truth.

"Now, my friend, let's be perfectly frank and candid about this matter;" the druggist said, placing both elbows on his plated show-case and looking his customer fairly in the eye. You have a lame back and want a plaster to put on it. You don't know me, and judging of human nature as it runs in business, you are afraid I'll humbug you in some way. You may think it an odd statement, but I can't afford to cheat you. Even if I did I haven't the means.

"That's curious. (Oh, my back! I'll take a chair, I guess.) Don't you keep plasters?"

"Oh, yes, one or two kinds. Once I had shelves full of them—every sort that were ever invented to gull the ignorant and make money for imitators. But I sifted 'em out one by one, and now sell

BENSON'S CAPCINE POROUS PLASTERS

Principally. They always give satisfaction, and in the end it pays me to sell them in preference to all others."

"Haven't you Allcock's?"

"Yes, but my customers and myself prefer Benson's Capcine—which are quick as electricity, safe as Government bonds and sure as the law of gravitation. The doctors order them, and what is more to the point, I have never heard a complaint from any one who has used them. You can go elsewhere—If your back will bear you out in the operation—and get another and a cheaper plaster, but—"

"Don't talk to me about the money," broke in the comfort-seeking stranger, with some heat. "What's 10 or 15 cents to getting rid of this confounded—oh, Lordy!—this pain and lameness? Let me have one of Benson's Capcine. That's the real article, is it? with the word CAPCINE cut in the body of the plaster."

"You'll be around in a week, staight and strong," added the diplomatic druggist, throwing the money in his cash drawer.

TUTT'S PILLS

TORPID BOWELS, DISORDERED LIVER, and MALARIA.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bowels costive, Sick Headache, fullness after eating, aversion to exertion of body or mind, Eructation of food, Irritability of temper, Low spirits, A feeling of having neglected some duty, Dizziness, Fluttering at the Heart, Dots before the eyes, highly colored Urine, CONSTIPATION, and demand the use of a remedy that acts directly on the Liver. As a Liver medicine TUTT'S PILLS have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three "scavengers of the system," producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. TUTT'S PILLS cause no nausea or griping nor interfere with daily work and are a perfect

IT PRESERVES YOUR BUTTER COLD, sweet and fresh, as no other refrigerator can do. This is guaranteed. It is a fact long established by all connoisseurs of butter, that any vessel, cabinet or refrigerator, made of wood or any other substance carrying with it an odor, destroys the rich aroma contained in fresh butter; and furthermore all butter kept in the same vessel, cabinet or refrigerator with vegetables, any kind of meat, or any substance carrying a scent, becomes so tainted as to be unfit for table use, and even for culinary purposes. People may complain of poor butter, but the fault lies in the manner of keeping it.

HOUSE VENTILATION.

The London *Lancet* describes an experiment recently made by Dr. Hogg of Chiswick in warming, cooling and ventilating a dwelling. The house has not been built long enough to test thoroughly the means for cooling the compartments, but the warming and ventilation work admirably. "None of the windows can be opened. There is but one fireplace; that is in the kitchen. Underneath the hall a large passage is used as the intake of fresh air. Here it can be cooled in Summer by ice or water spray, while in Winter it is warmed by hot steam pipes, which are economically heated by a small cook stove. The air then passes up into the hall, from which it is only separated by an iron trelliswork, and travels into every room of the house by apertures made in the skirtings and cornices. In the ceiling of each room there are one or two openings and exhaust shafts, leading to the foul air chamber in the roof of the house. To produce the exhaust suction, a large shaft runs from the foul air chamber down to the back of the kitchen fire, where the heat of the boiler and the fire suffice to attract the air. From the back of the kitchen, in the basement of the house, the air again travels up. A square brick shaft or chimney conveys it through the roof and into the open. In the center of this shaft is a circular metallic flue, which carries away the smoke of the kitchen fire, and this flue, always more or less heated, stimulates the current of air. A comparison of the minimum velocity at which the air moves forward in the extracting flues (200 feet per minute) with the cubic contents of the house, shows the atmosphere is entirely changed throughout the dwelling once in every 20 minutes. This result is obtained imperceptibly—that is, without the slighest draught; yet 10 persons smoking in one room felt no inconvenience, and next morning there was not the slightest trace or taint of tobacco odor remaining."

It is claimed that in addition to the equal heating of the entire house, the cost of fuel is reduced one-third from that of the ordinary method. But as the common way of heating houses in England is by open grates, this proportion might not be applicable to the American system of furnace or stoves.

EASTERN DISPATCHES.

[PRESS DISPATCHES TO THE GAZETTE.]

The Texas-Pacific Land Grant.

WASHINGTON, September 1.

Judge Payson is preparing an argument against the transfer of the Texas-Pacific land grant to the Southern Pacific Railroad, to be filed with the Secretary of the Interior. The Judge has fortified himself pretty thoroughly with private and public documents, and there is a belief on the part of many persons who have watched the course of Mr. Teller, that he will decide against the transfer, and would do so without any argument. There are about 15,000,000 acres of land in this grant, and Judge Payson is determined to secure it to settlers if he can. He takes extreme grounds in the case of these grants, and will not admit that as in the case of the Northern Pacific, that there is nothing now that can be done. In the first place, the Northern Pacific has several subsidiary grants that it has not earned, and has no intention, for the present at least, of earning. About 1,500,000 acres of the best land in Oregon, was granted to the Portland & Astoria line, which the company shows no inclination to construct. There are 3,000,000 acres along the Columbia, which the Northern Pacific will never make a route through, because it has come into possession of the road already built by the Oregon Railroad and Navigation Company. There are about 1,200,000 acres along the proposed Cascade line, where no road has yet been made. Obviously these tracts are still within the reach of Congress, even in case the lands granted to the main line, though the line has not been completed, where patents have not been issued to the railroad company. Judge Payson holds that Congress can still hold them forfeited. Judge Payson concurs with Mr. Holman of Indiana in the belief that it is not too late to declare the lands forfeited.

Civil Service in Chicago.

CHICAGO, August 31.

The first appointment here, under the Civil Service law, occurred to-day. Collector Spaulding made a requisition upon the local Examining Board of the Civil Service Commission for a person to fill a vacancy of a clerkship of $1,000 per annum in the Entry and Warehouse division of the Custom House, and the Board certified to four names as among the highest on the register, and the Collector selected John A. Corlett of Chicago, whose average standing was 98¼, the highest named. The Collector has also made a requisition for six persons to fill temporary Inspectorships.

Oil Wells in Colorado.

DENVER, Col., Aug. 31.

In the Arkansas Valley Company's oil well, at Canon City, to-day, at the depth of 1,060 feet, the drill penetrated a second vein of oil, which raised 120 feet in the tubing. Genuine pebble sand forms a part of the second stratum, the thickness of which is yet unknown. This well is two and a half miles from the Peabody well. The Canon City Company commence boring to-morrow, four miles north of Peabody. The oil obtained is heavy, and pure lubricating.

A New Departure.

ALLENTOWN, Pa., August 31.

Suits have been brought against the Bethlehem Company by a large number of farmers employes to receive the amounts deducted from their wages at the end of each month, in payment of bills incurred at the company's store. Judgement has been rendered against the company in two cases, for more than $300. The total amount at issue is very large, and the question concerns other corporations in the state.

Another Forest Fire.

HUNTERS POINT, L. I., Sept. 1,

The Woods between West Deer Park and Farmingdale, along the line of the Long Island railroad, were fired by sparks from a locomotive, and over four miles burned. The district is sparsely settled, but several families were driven from their houses by the approach of the flames. Unless rain falls, the whole district, covering many miles, will be devastated, as there are no facilities for arresting the fire.

The Texas Cattle Fever.

DETROIT, August 31.

The Texas cattle fever broke out in Detroit in the herd of a milkman in the western part of the city. The whole herd of twelve are infected, and several are already dead. A herd of ten steers, bought by a Genesee county farmer for feeding, some two weeks ago, have also been attacked by the disease, and a few have died already.

Reform in Kansas.

DODGE CITY, Kan., Sept. 1.

The City Council to-night instructed the Marshal to enforce the ordinance in relation to gambling and prostitution after the 6th of September. An ordinance was also adopted, to go into effect at the same time, prohibiting music in saloons and dance-houses. This was brought about by the Atchison, Topeka and Santa Fe Railroad Company, as they have assured the city authorities that if an effort were made to reform, a branch road would come here, and that the company would at once commence erecting permanent and expensive buildings; that in the event no such effort is made, all the shops would be removed and the road taken to some other point. Several railroad officials were here in a special car, waiting the action of the Council, and are perfectly satisfied with the result.

A Severe Drouth in the East.

BOSTON, August 31.

The drouth in eastern New England, which has lasted from five to six weeks, has become so serious that crops have been greatly injured, with prospects of still further damage. If the drouth is not broken, the farmers will be compelled to take their cows from the pastures and feed them on winter hay.

FOREIGN DISPATCHES

[PRESS DISPATCHES TO THE GAZETTE.]

More of the Dynamite Fiends.

GLASGOW, September 1.

The police decline to reveal the source of their information which led to the arrest yesterday of six Irishmen charged with having been connected with attempts to destroy property here last January. The men were all apprehended at the same time in different parts of the country. The house which they lived in was searched by the police. The prisoners are charged with blowing up the largest gasometer in the city, destroying railways and sheds, and attempting to destroy with dynamite the aqueduct of the Forth and Clyde canal. A brother of the Irishman named Donnelly was arrested here on the same charge.

They Want to Know How it is Done.

LONDON, September 1.

In the circular sent to British ports by the executive committee of the International Fisheries Exhibition, recommending the American method of catching mackerel and herring, it will be shown that the coast population strongly suggest that an American fish schooner be hired to come to Great Britain, and visit all the principal centers of the drift net fisherys for the purpose of demonstrating to the English fisherman the mode of working the purse seine net, and its great effectiveness. The circular suggests that the expenses of the experiment be borne by the exhibition.

A Royal Funeral.

VIENNA, Sept. 1.

Emperor Francis Joseph yesterday received all the Orleans Princes here Three thousand Frenchmen arrived at Garitze to attend the funeral of Chambord, and they expect 4,000 more will be present on the day of the funeral. Countess Chambord received the Orleans Princes with royal ceremonies

Honey Lake Items.

The Lassen *Advocate* of August 30 contains the following:

Mr. Stewart of Pit River valley, in this county, met with a severe loss last Sunday evening by fire, in having 300 tons of hay burned in the stock yard near his house. It is claimed to be the work of an incendiary.

Two large gray wolves were seen last Tuesday near Feather lake, worrying a few head of sheep they had separated from the main band. Three dead sheep were found near by, bitten through the neck.

A sheepherder at Bogards camp, on Pine creek, recently caught a grizzly bear in a trap. The animal had been doing an immense slaughtering business during the season. He weighed, when dressed, 800 pounds.

Last Saturday M. Sugro brought to this office for inspection a large cauliflower weighing 24 pounds. The head was nicely-rounded, solid and tender, and taken all in all was the finest specimen of that vegetable we have ever seen.

ATTEMPT AT SUICIDE.

Ben Franklin Jumps Into the River, and Subsequently Cuts His Throat.

An old man named Ben Franklin, who has lived in Reno for the past eight or 10 years, came to the Ohio House this morning about 1 o'clock, drenched to the skin, and told John Hoy, the proprietor, that he had fallen into the river. Franklin seemed to be chilled through. Mr. Hoy took him to a room on the first floor and put him to bed. At 5 o'clock he heard a gurgling sound coming from the room occupied by Franklin, got up, and upon opening the door, saw him sitting on the side of the bed with his head resting in his left hand, and his right at his throat. Hoy thought he wanted to vomit, and placed him in an easy position to do so, when he discovered that Franklin had inserted a sharp-pointed pocket-knife in the center of his neck and was cutting and slashing, first one way and then the other, until he had inflicted a very ugly-looking wound in his throat, nearly severing the windpipe. Hoy took the knife away from him and sent a messenger for Dr. Waggoner who dressed the wound and rendered such assistance as was necessary. Franklin is by occupation a painter and has been addicted to drink, sometimes going on protracted sprees, but Hoy says he seemed to be perfectly sober when he came in last night. A GAZETTE reporter ascertained this morning, however, that Franklin had been on a bit of a toot for a day or two past. Franklin says he tried to drown himself in the river, but found the water too cold. He regrets that he did not jump from the iron bridge, and thinks that had he done so he would have made a better job. He seems to be somewhat demented, but his troubles can be traced directly to the excessive use of liquor. Dr. Waggoner thinks with proper care he will recover. Franklin is a native of Maine, and 46 years of age. He has no relatives on this coast.

LATER—Upon making a further examination this afternoon, several cuts were found in his left side, none of them necessarily fatal, however.

KILLED BY A WOMAN.

A Young Man Fatally Shot Near Los Angeles.

A young man named Ranuflo Pico, adopted son of P. Pico, was shot and killed at Ranchito, 12 miles east of Los Angeles, last Thursday night. He left the house with a young woman named Maria Iquacia Lozeg, with whom he had been living, and within a few minutes a pistol shot was heard, and she rushed back to the house and said to her brother: "Forgive me, I have killed Ranuflo!" It is alleged that Pico seduced the girl, who will soon become a mother, under promise of marriage, and when importuned to marry, declined to fulfill his promise. It appears that she had renewed her importunities last evening, and when they left the house was still beseeching him, and upon his refusing again, it is supposed she shot him. An inquest was held at which the only evidence was the hearing of the shot and the finding of the body. The jury brought in a verdict that death was caused by some one unknown. Deceased was about 20. The girl is respectably connected, and about 18.

Forest Fires.

The mountains about Verdi are full of fires. There is one near the track, five miles above, that started last evening, and burned bravely for a while; another is consuming the dead brush on the divide between Dog Valley and Peavine. Still another is going on the hill above S. L. Laughton's, at the old Proctor mill—one of the oldest in this country—in the sawdust and slabs, and the biggest of all. A fire many acres in extent, is covering the hill southwest of Verdi, and affording a magnificent spectacle. Yesterday it burned up the cabin of some Italian woodchoppers, and was all around Mr. Laughton's wood pile, containing 300 or 400 cords. The wood was saved after a hard fight. Nine men were out until 2 o'clock this morning shoveling dirt and starting back fires.

Good Scores.

Twelve men made a total of 1,059—an average of 88 1-12, Wednesday, at Carson, which beats anything the Californians have done so far in their practice. Following are the individual scores:

	200 yds.	500 yds.
Thaxter	45	49—94
Alley	43	49—92
Crawford	44	48—92
Slocomb	44	47—91
Hark	43	46—89
Parker	42	47—89
Galusha	42	45—87
Burke	44	42—86
Cowing	41	45—86
Cheney	43	42—85
Saffell	43	41—84
Borges	42	42—84

Drowned While Bathing.

About 7 o'clock Friday evening, two boys, named Weaver, brothers, were drowned while bathing in the river in front of the Y-street levee, Sacramento. A boy named Johnston, who went to their rescue, was also drowned. None of the bodies were recovered. All were residents of Sacramento.

Miss Emma Linn, who has been visiting at home, in Reno, during her vacation, returned to Winnemucca this morning, to be ready for her school, which will commence next Monday.

RIFLE PRACTICE.

The Nevada Boys Preparing For the Inter-State Match.

The following members of the committee, viz.: Col. F. C. Lord, Captain Fraser, Captain H. G. Parker and Lieutenant C. H. Galusha, having in charge the arrangements pertaining to the coming inter-State rifle match at Carson on the 17th of September, says the Virginia *Chronicle*, met yesterday and canvassed and discussed the question and made arrangements for the success of the coming shoot.

The first subject on hand was the selection of the men who should go to Carson to practice, and the following selection was made: From Company A, Captain Fraser; from Company B, O'Brien, Cameron, Ferris, Rippingham, Kane, Galusha; from Company F, Thaxter, Cowing, Cheney, Crawford, Parker, Hark, Borges, Saffell, Alley, Heritage, Little, Slocomb, Laing, Cagwin; from Battery A, Colonel Lord.

Captain Fraser moved, and it was carried, that the days of competition for places in the team be the 6th, 7th and 8th of September; also, that a team of 14 men be selected at the close of the competition on Saturday, the 8th of September; that the competitions shall be conducted according to the rules adopted for the match.

It was decided that Colonel Lord shall have charge of the team on the first day, Lieutenant Galusha the second day, and Captain Fraser the third day.

Coming to the Front.

The Plumas *National* has been inspecting some mines up there. One called the Cameron has a tunnel in some 60 feet, with a ledge 14 feet in width, and the rock is first-rate. The next location to Cameron is from the top of the hill down towards Deadwood, and is known as the William Penn claim. A. McIntosh of Boca, has a half interest in the Cameron and owns all the William Penn. He says he proposes to step up among the bonanza kings soon.

Selling Whisky Without License.

The Constable at Franktown arrived last evening with a Chinaman who had been sent to jail by Justice Cobb of the above place, for carrying on, in the vicinity of Marlett & Folsom's mill, a pretty extensive retail whisky business without having contributed anything towards the support of the county government. He gets 40 days board for the offense.

A Powerful Explosive.

H. D. Van Campen of New York has been granted a patent on what is claimed to be the most powerful explosive ever known in the world. It is said, too, to be absolutely safe and can be transported without danger as it is free from all the objections usually found in other explosives. It is said to be 100 times more powerful than giant powder.

Church Notices.

Services at the Congregational Church conducted by the pastor, Rev. A. B. Palmer both morning and evening as usual. Sunday School at 12:15 P. M. Free seats and all made welcome.

SCENE IN A HAREM.

The Beautiful Slaves of a Turkish Pasha—How They Dress.

"The gates of the Adobe of Bliss," said Mrs. Newman, "closed instantly after I entered the building. A long corridor opened into the main apartment of the harem. It was furnished with gorgeous tapestry hangings and sumptous satin furniture of curious design. The curtained windows looked down upon blooming gardens. Ranged about the chamber in different attitudes were a score of women. Some were seated on divans and some were kneeling—13 of them were the wives of the Pasha. A cloud of negro servants attended their wants. I could speak but a few words of Arabic, but we were at home on the subject of dress, which has a universal language of its own among women. All the women had large, long-lashed and lustrous eyes, and dark, finely-chiseled features. Their costumes were magnificent, and strangely fashioned of rich satins and loaded with ornaments of gold and jewels and garlands of pearl. Their head dresses were of silken gauze, held by bands of gold and surmounted by graceful ostrich feathers. They wore silk trowsers and silver slippers, and their finger nails were tinged with yellow. To an elderly lady, very queenly in her movements, implicit obedience was yielded by the others. The air of the apartment was heavy with the perfume of sandal wood. A crowd of colored servants brought in cigarettes and sweetmeats and coffee, and of the delicacies I was pressed to partake.

The eating of these dainties and gossiping with each other is the sole occupation of the women of the harem. They live in luxurious bondage, in blissful ignorance of the outside world. I longed to reveal its beauties and possibilities to them, but could converse only by gestures. Before I left a baby Pasha was shown to me. Its mother looked like a veritable "Sleeping Beauty." The interest shown in the baby and the mother by the other women of the harem was to me a beautiful evidence of the universal sisterhood of women."

NEARLY FATAL.

A Man Jumps Out of a Window in His Sleep.

A most singular accident occurred at Eureka, Nev., Thursday night. S. F. Taylor, whose family resides in San Francisco, but who at present is stopping at the Vance House, Eureka, retired to bed about 10 o'clock. During the day he had learned that his business partner, Alexander Weed, had both legs broken during the Triennial Conclave in San Francisco by a horse falling on him. The accident preyed on Taylor's mind, and during his sleep the whole occurence appeared vividly before him. In the dream he saw his friend falling beneath his horse, and he sympathetically sprang forward to save him. His bed lay near the window in the room, and on reaching it he did not pause, but flung himself bodily forth' falling some 30 feet. His fall, however, was broken by his chin striking the window sill, inflicting an ugly gash. When found he was lying on the ground badly stunned. His right leg was broken, but he miraculously escaped without further injury. His physicians say he will be all right in a couple of weeks.

Arabian Millet.

Orin C. Ross sowed five pounds of Arabian millet seed last Spring, and now shows three-quarters of an acre of this grass, averaging about eight feet in hight. It is very coarse, nearly as much so as the smaller stocks of sugar cane. The leaves are very much like those on corn stalks. Mr. Ross has not tried any by feeding it to stock, but thinks cattle will eat it with great relish.

Sale of a Big Ranch.

George Carrel has sold his half interest in the Carrel & Stock ranch, Paradise Valley, Humboldt county, to his partner, William Stock. The ranch comprises about 3,800 acres of farming and meadow land, said to be one of the finest grain ranches in the State. The sale includes 11,000 bushels of grain on the ranch, besides about 250,000 pounds of wheat and barley.

Injured by a Falling Wall.

The walls of a building known as the Kirman building, standing since the fire of July 19, fell yesterday at Virginia, during the high wind. Two men, Terry Maguire and Thos. Long, were caught by the walls and more or less injured. Long had his left shoulder broken and was otherwise cut and bruised. Maguire escaped without serious injury.

Show Up, Boys.

Where are Bob Hoy, Charley Stoddard, Joe Dillman, W. H. McInnis, Sam Myers and other bulls-eye perforaters of the Reno Guard? The inter-State match takes place on the 17th of September, and some of the Reno shooters are deserving of a place in the team.

Proof Against Blizzards.

Steed & Co., druggists, at Bethel, Minn., say we sell more of the great pain cure, St. Jacobs Oil, than all the rest we have in the store. It never fails to cure.

A Saw-Mill in Danger.

Word was received by the northern stage last evening that Bragg & Schooling's saw-mill, at Long Valley, was in imminent danger from fire. Yesterday afternoon the "edging" pile took fire, as is supposed, from a spark from the smoke-stack, and the high wind which prevailed instantly fanned it into an uncontrollable blaze, igniting a large pile of slabs, producing such intense heat that little or nothing could be done towards saving the lumber-yard and the expensive trestle work about the mill, which were soon after consumed. The machinery in the mill was all loosened by the workmen, preparatory to removal, in case of necessity. It is not yet known whether the mill was burned or not. Messrs. Bragg & Schooling left here last evening soon after 8 o'clock, hoping to arrive in time to assist in saving the machinery.

LATER.—Report comes from the mill this afternoon that the fire did but little damage to the property. The loss will be comparatively nothing.

Invalid mothers, weak children, nervous and fretful infants are benefited by using Brown's Iron Bitters. Harmless but efficacious.

RANCH FOR SALE.

A RARE CHANCE

—FOR A—

LARGE INVESTMENT.

One Hundred and Six Thousand Acres.

THE WELL-KNOWN AND VALUABLE

CLOVER VALLEY RANCH

Located in

Humboldt County, Nevada,

FOR SALE!

4,000 Head of Graded Cattle.

84 Head American Horses, including 50 Fine American Brood Mares 6,000 Acres Fine Meadow Land, Capable of Producing

5,000 TONS of HAY per ANNUM

240 ACRES IN ALFALFA, WELL IRrigated, producing five tons per Acre. 28,000 acres under fence.

MOWERS, REAPERS, FARMING IMPLEMENTS.

With all the appliances of a stock and grain farm to be included in the sale.

The Whole Ranch Comprising One Hundred and Six Thousand Acres.

CONTROLLING TWO HUNDRED AND FIFTY THOUSAND ACRES.

THE CLOVER VALLEY RANCH, OR, as it is sometimes known, "The Iron Point Stock and Grain Ranch," Nevada, embracing one hundred and six thousand acres of land, is now offered for sale upon terms which represent a liberal concession to the purchaser, and offers high inducements in the way of a safe, permanent and profitable investment.

With this ranch will be sold four thousand head of stock cattle, now in splendid condition, embracing thoroughbred Durham bulls, purchased at a cost of six hundred dollars each. The entire herd is composed of grades produced by crossing the best American cows with the very best thoroughbred Durham bulls ever imported to this country. There are no inferior animals in the herd; no Spanish cattle or crosses from Spanish cattle. These ranches embrace six thousand acres of meadow land, which will produce about five thousand tons of hay per annum. There are two hundred and forty acres of fine alfalfa under irrigation, capable of producing twelve hundred and fifty tons of hay per annum. Twenty-eight thousand acres of this ranch is now under fence, redwood posts set sixteen feet apart, with four barbed wires, nearly new. Buildings attached to the ranch consist of one good one story and a half house, with four rooms, a stone cellar, and stone dairy house, well built. Horse barn forty by one hundred feet, with stalls for thirty horses. There is a splendid creek of living water running through the ranch; also, an excellent well of water with two or three springs. Inside the inclosure there are two springs from which issue about twenty-five hundred inches of water, sufficient to irrigate twenty-five hundred acres of land which lie below them, and which may be subjected to irrigation at but little cost. Included in this sale there are two thousand acres of fine agricultural and meadow land, about seven miles northeast of the ranch buildings, upon which there are one hundred and twenty acres in alfalfa finely growing. This is a fine grain ranch, and will produce forty to fifty bushels of barley per acre per annum. There is a good orchard in bearing, and a live stream of water affording abundance of trout. About four hundred acres of this small ranch is under fence. The vendors of these ranches own and control the water rights indispensable to the use of two hundred and fifty thousand acres of land for grazing. There is sufficient water to irrigate twenty-four thousand acres in the lower ranch, and one thousand in the upper, making a total of thirty-four hundred acres.

The sale will include eighty-four head of good American horses, fifty of which are large fine brood mares, the remainder being saddle horses, well trained for herding cattle and well broken work horses; also, there will be included in this sale grain headers, eight mowing machines, harrows and all farming implements necessary to run this ranch.

Six years ago this ranch maintained throughout the year about forty thousand head of cattle. The range was injured by being overstocked, and the stock was sold, the owner of this ranch selling twelve thousand head. After a rest of six years the range was recuperated and is now as good as when in its primitive condition. The four thousand head of cattle now offered for sale are the progeny of well-selected cows from the best dairy herds in California and Nevada. They have increased to their present numbers very rapidly. Eight hundred calves will be produced in 1882, and estimating upon the basis of the past experience of increase the band of 1884 will exceed that number by one-half. The range is capable of supporting, without being overstocked, twenty-five thousand head, and the present herd may be increased to that number without seeking other range than that now proposed to be sold.

The Clover Valley ranges embrace:—Township 36 north, ranges 41, 42, 43, 44, east, township 37 north, ranges 42, 43, 44 east; township 38 north, ranges 43, 44 east; township 39 north, range 43 east—Mount Diablo meridian.

Title based upon patents from the United States will be given to one hundred and six thousand acres of land, commanding about one hundred fifty thousand additional acres, to which the ownership of the land now offered for sale is a perfect key. The present value of the property is estimated to be worth four hundred and twenty-eight thousand dollars. The whole is offered for three hundred thousand dollars, of which one hundred and seventy-five thousand dollars must be paid in cash, one hundred and twenty-five thousand dollars in five years. Deferred payments to bear seven per cent. interest per annum.

The cattle and horses will be sold by actual count. If the herd fall short of four thousand head of cattle, or eighty-four head of horses, a pro rata amount for the shortage will be deducted from the total purchase price.

Reference is had to ALVARO EVANS, capitalist, of Reno, and R. L. FULTON, RENO GAZETTE, Reno, for verification of there presentation set forth above. Inspection of the stock, lands and other property is solicited.

GENERAL NOTES.

A San Francisco paper says a poor washerwoman, near the Pavilion, who could not afford to decorate on the day of parade, determined, with woman's ingenuity, to do honor to the occasion at all risks. She propped her clothesline up into the perspective, displaying a white petticoat, upon which red, black and yellow stockings were pinned in the form of a Maltese cross. This simple offering affected many of the sturdy Knights to tears, and with Knightly gallantry the entire line saluted these tokens of the real power that rules the world.

Judge Edwards rendered an important decision in the District Court of Ormsby county a few days ago, in which was involved the right of a married woman to control her separate property. The action was for the foreclosure of a mortgage upon the stone stable and the premises occupied by Keyser & Elrod. Mrs. Roberts executed a note for $900 jointly with her husband as surety for her husband. She also executed another note for $400 jointly with Jacob Muller, upon which Muller was her surety. Muller was subsequently compelled to pay this note. At the time of the execution of these notes Mrs. Roberts assigned a $5,000 note and mortgage on the stone stable as collateral security for the payment of the Cartan, McCarthy & Co. and the Jacob Muller notes. The $5,000 note and mortgage were the separate property of Mrs. Roberts. Mrs. Roberts set up as a defense the common law disability of a married woman to bind herself to a contract. The case being of general interest, and never having been passed upon by our Supreme Court, was argued at great length. More than 100 authorities upon the subject were produced and read before Judge Edwards. The Court held under sections 159 and 169 of the Compiled Laws of Nevada, following the recent American decisions under similar Statutes, that the Common Law disability of a married woman as to the absolute control and disposition of her separate property was removed, and that Mrs. Roberts was bound by her execution of the Cartan, McCarthy & Co. and Jacob Muller notes, and by her assignment of the note and mortgage on the stone stable as collateral security thereof. The Court gives judgment in favor of plaintiffs and defendant Jacob Muller, and decrees that the Sheriff sell the property and out of the proceeds pay Cartan, McCarthy & Co. and Jacob Muller, and pay the residue to Mrs. Roberts.

About two months ago two young ladies, twin sisters, arrived in Truckee from Sierra Valley and put up at one of the hotels. Being desirous of earning an honest living as they said, they soon obtained desirable situations in respectable families; for a little while they were industrious, performed their duties in a satisfactory manner and seemed contented, but they soon made the acquaintance of a number of fast young men, got in the habit of taking walks every evening and staying out late. Matters went on this way for a time; they daily seemed to care less for their situations and more for the company of young men. About ten days ago they threw off all restraint and went over to Jibboom street, and took rooms in one of the dance houses. The girl's uncle, hearing of this, came to town, Saturday evening last, and accompanied by a number of friends from the valley, and the officers, went over to the dance house after them. It being Saturday evening, that place was running in full blast. One of the girls was on the floor dancing when the party entered, headed by the girl's uncle. The almost heart-broken old man said nothing but walked up to her, took her by the arm and led her out of the door. Some of those present made a move to prevent their exit, but one look at the escourt, all of whom evidently went there expecting a row and had gone prepared for it, and the ominous click of two or three revolvers, caused them to change their minds very suddenly. The girl's uncle demanded her trunk and clothes, and they were speedily delivered to him. It appears that the twin sister had the day before taken her departure for Sacramento. Sunday morning last the old man departed for the valley with his erring neice where it is to be hoped she will see the error of her ways. We have suppressed the names out of respect for the gray haired [illegible] who cared for the young ladies from childhood, and a desire not to throw a straw in their way if they wish to make an endeavor to become honest women.—Republican.

Good health, rosy cheeks and beautiful skin ladies can get by using Brown's Iron Bitters.

MISCELLANEOUS.

AYER'S
Cherry Pectoral.

No other complaints are so insidious in their attack as those affecting the throat and lungs: none so trifled with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured.

"In 1857 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now 62 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved me.
HORACE FAIRBROTHER."
Rockingham, Vt., July 15, 1882.

Croup.—A Mother's Tribute.

"While in the country last winter my little boy, three years old, was taken ill with croup; it seemed as if he would die from strangulation. One of the family suggested the use of AYER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours,
MRS. EMMA GEDNEY."
159 West 128th St., New York, May 16, 1882.

"I have used AYER'S CHERRY PECTORAL in my family for several years, and do not hesitate to pronounce it the most effectual remedy for coughs and colds we have ever tried.
A. J. CRANE."
Lake Crystal, Minn., March 13, 1882.

"I suffered for eight years from Bronchitis, and after trying many remedies with no success, I was cured by the use of AYER'S CHERRY PECTORAL.
JOSEPH WALDEN."
Byhalia, Miss., April 5, 1882.

"I cannot say enough in praise of AYER'S CHERRY PECTORAL, believing as I do that but for its use I should long since have died from lung troubles.
E. BRAGDON."
Palestine, Texas, April 22, 1882.

No case of an affection of the throat or lungs exists which cannot be greatly relieved by the use of AYER'S CHERRY PECTORAL, and it will *always cure* when the disease is not already beyond the control of medicine.
